

A24

Axis A24 is the largest boat in the line of models with a trident bow. This is practicality, high functionality and power. But this is not the most important thing for connoisseurs of unforgettable moments of life. The boat gives a feeling of lightness and delight, whether it is a regular river or sea walk, outdoor activities or professional sports. Axis A24 creates the perfect wave texture that stays intact even with strong wind gusts or small ripples.
