PERSHING
GTX80

The Show Flows On

GTX80

Pershing GTX80

Enjoyment and fun reach new heights. The interiors and exteriors blend into each other, breaking down barriers. Welcome to a new dimension of comfort, where the cruising experience amplifies every emotion.

Parabrezza

Offers a panoramic 360-degree view from the helm station, with a sunroof that opens to provide natural ventilation, for a peerless cruising experience.

Seafront Lounge

A sumptuous dinette forward becomes a spacious sun pad, designed for moments of luxury in total privacy. Adaptable to different configurations: both outdoor areas can be shaded from the sun by awnings.

Sundeck

At 23 square metres, it's 60% larger than the category average. Dominating the scene are a spacious sun pad aft, a dinette with two sofas and a dining table.

Seascape

The defining feature of the GTX Series. A space in the stern that offers an uninterrupted and infinite connection with the sea.

The owner has the option of installing the carbon fibre and fabric T-top, with its appealing, light-touch design, which shelters the sundeck for unparalleled comfort.

Bold and proud, GTX80 is a sport utility yacht eager to offer performance, fun and adventure. Equipped with three VOLVO PENTA IPS engines rated 1,000 hp each and state-of-the-art control technology, this yacht delivers maximum efficiency and the ability to transition effortlessly from pure excitement to sheer enjoyment.

Pershing GTX80 takes the synergy between maximum interior space usage and incredible performance to the next level, delivering ever higher standards of onboard liveability.

The design of the boldly detailed interiors is inspired by the dynamic cruising style and the pace of life on board, creating a new dimension in which luxury and the 'gran turismo' experience co-exist.

Every setting is designed to intensify the flow of emotions experienced on board this model and accentuate its personality, creating a seamless connection between indoors and outdoors, between boat and sea. The sophisticated entrance, with electric windows and two sliding panels, perfects this spatial harmony.
