23 LSV

Wakesetter 23 LSV. The icon. The legend. The world champion.

The 23 LSV has been the best-selling towboat over the last 10 years – and she is constantly being updated at that. You would probably like to know why she is updated so often if this boat is sold so well. The Malibu Boats Company has created wake sport from scratch by integrating more than 16 patented technologies in this industry. All these technologies allow to create perfect waves with ease. In one touch, the amateur wave will be transformed into the wave of the world contest level! This statement is not an allegation – for a number of years in a row, the Company has repeatedly won in various categories WSIA SLA and Wake World (more than 20 awards). The 23 LSV 2019 has become the best boat for wakesurfing in riders' opinion. In 2019, the greatest number of the internet surfers voted for this boat. That is fair enough! The hull of the boat with the traditional deep V-shape can accommodate 15 people, and each technology has its own proper place and works at a capacity of 2000%, allowing for the most perfect wave possible in the industry! That is why she is the boat of choice!
