

# T220

The brand new Axis T220 2022 has replaced the T22. The updated shape of the bow of the boat, the new geometry of the contours and the shape of the hull, - all this emphasizes that the model is not just an update of the previous version, but a new boat of the T series.

The novelty received an expanded bow area for greater passenger comfort. Thanks to the installed Surf Gate, Power Wedge surf systems and new hull lines, the boat will appeal to fans of wakeboarding and wakesurfing even more, because it was designed for them. It was on this boat that the designers and engineers of the company decided to show the new control console. The Garmin monitor has appeared on the panel to the right of the steering wheel, which displays the main parameters of the boat, ballast system and surf options. Underneath, there is a duplicate surf systems management console (SportDash). On the left side of the steering wheel there is a new control system for the audio system. The boats comfortably accommodate up to 15 people.
