TXI

The form of T-Cut Diamond Hull™ has proven its excellence in the worldwide competitions, and no wonder that 13 world water-skiing records have been set on this boat.

Progressive steering combined with enlarged rudder provides a smooth and precise ride, enabling the boat's pilot to create steady and predictable pull for a rider, despite the speed of the boat or the tricks performed by a rider.

The Command Center console is represented by two LCD screens that display all the information and settings of the boat. To date, there could not be more advanced system in the industry! The ergonomics of the redesigned steering wheel and cutting-edge control console make piloting a bliss.

There are two versions of the bow – Open BOW and Closed BOW. The Closed BOW can accommodate up to five people. The Open BOW differs only by two extra seats for passengers.

If you are a fan of waterskiing, please do contact us now to become a proud owner of Malibu TXi – she is a real champion indeed!
